DETAILED ACTION

Response to Amendment

Applicant's amendment dated 09/26/2005, with respect to Claims 1 – 14 have been fully considered and are compliance with the Office Action dated 07/11/2005. Claims 1 – 14 herein are allowed.

The following is an examiner's statement of reasons for allowance:

Prior art failed to disclose or imply:

"A crimping press for producing a crimped connection with an upper tool and a lower tool, the upper tool being movable in a linear motion to crimp a contact, onto an end of a conductor which contact is laid on the lower tool, comprising: a pressing slider slidably mounted on a crimping press for linear movement toward and away from a lower tool mounted on said crimping press; and an upper tool arranged on said pressing slider for movement therewith, said upper tool cooperating with said lower tool to crimp a contact onto an end of a conductor."

The closest piece of art (Inoue et al., 5,706,570) discloses a terminal crimping device which contains some claimed subject matters except for the linear

movement.

However, prior art of record fails to disclose the claimed subject matter as set forth above.

Therefore, the Crimping press with contact feed per claims 1 – 14 herein are being allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
